Re: 11/02/2021 Annual School Election PCSSD Ballot Error

On October 25, 2021, an error was found on the Pulaski County Special School District certified ballots. An omission of the unopposed candidates was discovered. The Board was notified individually of proposed options to rectify this issue. An emergency meeting is scheduled for October 26, 2021, at 5:00 p.m. School Board Candidates have been notified.

County Attorney, Adam Fogleman recommends that the Board exercise a correction with a light touch, to provide an opportunity for voters to participate in casting ballots in some form or fashion in favor of “unopposed candidates”, that offers as little disruption as possible to the millage election on the ballot.

Based on this recommendation, I think providing supplemental ballots (ballot attached) at the voting locations for Pulaski County Special School District voters, will suffice. This will allow voters to request the supplemental ballot for the unopposed candidates, after voting on the millage issue. Signage will be provided for the affected voting locations.
